LEGAL NOTICE

Transparency in Coverage

Transparency in Coverage (TIC) regulations require health insurers and group health plans to create machine readable files (MRFs) that contain the negotiated rates for in-network providers and allowed amounts derived from historical claims for out-of-network providers and make those files publicly available. They must be made available on an open access website effective July 1, 2022.

A machine readable file is a digital representation of data or information in a file that can be imported or read by a computer system for further processing without human intervention.

These files follow the Centers for Medicare & Medicaid Services (CMS) defined layout and are in the CMS approved format (JSON) and are not meant for a consumer-friendly search of rates, benefits, or cost sharing. Anthem will publish the MRFs for the plans we administer and maintain. These files will be published on anthem.com and will be updated on the first day of each month. The link (https://www.anthem.com/machine-readable-file/search), will allow you to search for your files using Versiti's Employer Identification Number (EIN 45-4675354), as shown below

When using the search option, the page will display links to several files, including:

- Applicable In-Network Negotiated Rate Files
- Out-of-Network Allowed Amount Files
- Out-of-Area Rates (applicable when members use providers in non-Anthem states.)

It will look similar to this:

Search results for "123-456789"
