

Need help making your Choices? ALEX is here to help

Selecting your benefits can be tricky.

That's why this year, Versiti is bringing you ALEX to help you choose the benefits that'll keep you healthy and save you money.

What is ALEX?

ALEX is an online tool that helps you select the best benefit plan for you and your family. When you talk to ALEX, you'll be asked a few questions about your health care needs. ALEX will crunch some numbers and point out what makes the most sense for you.

Can I trust ALEX with my private information?

Yes! Your ALEX experience is totally private and secure. Anything you tell ALEX remains between the two of you.

How does ALEX know what plan is best for me?

ALEX takes the amount each plan would cost you out of your paycheck (your premium) and adds that to the amount it would cost for the services you said you might use. Then it will recommend the least expensive plan for your needs.
