

Maintenance Choice®

You may be able to save with 90-day supplies

Check to see if you can save by filling your medications in 90-day supplies at a select participating pharmacy.

A change is coming to your prescription benefit plan

Your plan offers Maintenance Choice, a program which gives you the option to pick up or get delivery of 90-day supplies of the medication you take regularly (for things like diabetes, high blood pressure, asthma, etc.) at select participating pharmacies.

You'll need to fill these medications in 90-day supplies at a select participating pharmacy. If you fill them at another pharmacy, or in 30-day

supplies, your medications won't be covered and you'll pay the full cost unless you opt out.

If you want to keep filling your prescriptions at your current pharmacy in 30-day supplies without paying the full cost, you can call the number on your member ID card to opt out once your new plan starts. If you opt out during the plan year, you will need to opt out again when your plan benefits renew.

Here's what you need to do:

1. On or after your new plan's effective date, use the *Pharmacy Locator* tool to find a select participating pharmacy.

2. Ask your prescriber to send a new 90-day prescription to that pharmacy for pickup or delivery.

If you want to opt out of filling in 90-day supplies, call the number on your member ID card once your new plan starts.

To find a participating pharmacy, visit [Caremark.com/PharmacyLocator](https://www.caremark.com/PharmacyLocator) or scan the code.
